SUMMARY

MERN Stack Developer with hands-on experience in building scalable web applications using MongoDB, Express.js, React.js, and Node.js. Strong foundation in backend architecture, REST APIs, and authentication systems. Passionate about developing secure, high-performance applications and continuously improving problem-solving skills.

SKILLS

Languages: Java, JavaScript, SQL
Frontend: HTML, CSS, React.js, Tailwind CSS, Bootstrap
UI/UX Tools: Figma Canvas
Backend: Node.js, Express.js
Database: MongoDB, MySQL
Developer Tools: Git, GitHub, Postman, VS Code
APIs & Architecture: REST APIs, MVC Architecture

EDUCATION

BCA | Sant Singaji Institute of Science & Management ,Vikram University Ujjain(2023–2026) CGPA:7.90

MCA (Pursuing)| Apex Institute of Management & Research, RGPA University, Indore (2026–2028)

PROJECTS

Technicians Booking: –LIVE DEMO | GITHUB

- Designed and developed a full-stack service booking platform enabling user onboarding, service requests, and technician assignment
- Built and optimized 10+ RESTful API endpoints for user management, service handling, and booking operations
- Implemented JWT-based authentication with role-based authorization for customers and technicians ensuring secure access
- Structured and managed 5+ MongoDB collections with schema validation and relational referencing
- Improved backend performance and maintainability using MVC architecture and modular coding practices
- Managed version control and feature updates with 40+ Git commits in a collaborative development work low

Tech Stack: MongoDB, Express.js, React.js, Node.js, JavaScript, JWT

School Management: –LIVE DEMO | GITHUB

- Developed a full-stack school management system to manage students, teachers, classes, and academic records
- Implemented modules for student admission, attendance tracking, and fee management improving operational eficiency by 50%
- Designed secure role-based authentication system for admin, teachers, and students
- Built responsive user interface ensuring seamless experience across desktop, tablet, and mobile devices
- Developed result management and report generation features for tracking student performance
- Created and integrated RESTful APIs for smooth data communication between frontend and backend

Tech Stack: MongoDB, Express.js, React.js, Node.js, JavaScript, JWT
